

WHINT® Interface Catalog (SAP CPI)

This solution provides you with an Excel overview about your CPI Integration Content: All relevant information from your SAP Cloud Platform Integration Tenant (Integration Artifacts, Message-Processing Information, Partner Directory) as well as APIs from SAP Cloud Platform API Management.

Functionality

Periodical Downloads of iFlows with Messaging Information as an Excel Sheet. It answers questions like

- > which integration flows are currently deployed?
- > what message volumes do we have over the month per integration flow?

Interface Catalog (Cloud Edition)																
Integration Artifact	Description	ID	Version	Type	Package	Deployed By	Deployed On	Status	Message Period: 15.11.19 - 15.12.19			Enabled		Configuration Parameters		
									Msg	Date	Param(s)	Msg	Date	Msg	Date	Key
Communicate to BI	This is a single, multi-purpose integration flow, which does all types of requests	com.sap.GS.Span.01.Cat	3.0.2	Integration flow	iDocumentVATRegulatorBookletSpain		27.03.19 17:14	started	27299	30	0	0			MsgBodySize	100
									1	15.12.19	0.962				EPF_OutgoingAddress	Spain@lCommunicate

									93	14.12.19	0.608					

The solution is using the Standard OData API of SAP CPI and can be deployed on your CPI tenant as an Integration Package or provided as a service (where we would receive read access from our SAP CPI tenant). The following documents are being created:

- > **Interface Catalog, Partner Directory**
(SAP CP Integration)
- > **API Catalog**
(SAP CP API Management)
- > **Landscape Check**
(SAP CPI Tenant comparison)
