

WHINT® RabbitMQ Adapter (SAP CPI)

This OSGI adapter for SAP Cloud Platform Integration (CPI) allows you to connect to RabbitMQ using the AMQP protocol based on the RabbitMQ JDK, a reliable way to establish a properly decoupled application integration using message queues and topics.

Functionality

Seamless integration between SAP CPI and RabbitMQ brokers hosted on-premise or in the cloud:

- > Basic Authentication
- > Custom Message Properties
- > Deadletter Queues
- > Queue/Exchange Integration
- > Configurable Attributes
